

PRAKASH RAMAVATH

Karnataka, India

arjunrathod7993@gmail.com | GitHub | LinkedIn | Portfolio | LeetCode | CodeChef

Professional Summary

Full Stack Developer and AI Product Builder with experience building scalable AI-powered web applications using Next.js, MERN Stack, PostgreSQL, and LLM integrations. Skilled in developing production-ready platforms for career optimization, finance, recruitment, and interview preparation. Solved 150+ DSA problems across LeetCode and CodeChef while actively learning System Design, Generative AI, and Agentic AI systems. Passionate about solving real-world problems through intelligent and user-focused software solutions.

Technical Skills

Languages: JavaScript, TypeScript, Java, Python, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Redux

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, PostgreSQL, Supabase, Prisma ORM

AI & Cloud: Google Gemini API, Firebase, Vercel, Clerk, Stream SDK, Generative AI, Agentic AI

Core CS: Data Structures & Algorithms, OOPs, DBMS, Operating Systems, System Design

Tools: Git, GitHub, Postman, VS Code, npm, Vercel, Render

Projects

ResumeAI – Intelligent Resume & Career Optimization Platform | *Next.js, TypeScript, PostgreSQL*

- Built AI-powered platform to generate ATS-optimized resumes tailored to job descriptions.
- Implemented multi-step AI workflows for keyword optimization and resume enhancement.
- Added career insights, skill-gap analysis, and AI-driven recommendations.
- Live: resumeaii.vercel.app
- GitHub: github.com/prakashramav/ResumeAI

Interview-AI – Real-Time AI Interview Assistant | *Next.js, Prisma, PostgreSQL*

- Built real-time AI mock interview platform with live video/audio interview sessions.
- Integrated Google Gemini API for question generation and answer evaluation.
- Implemented secure authentication using Clerk and JWT-based workflows.
- Configured Arcjet middleware for API rate limiting and bot protection.
- Developed scalable backend using Prisma ORM and PostgreSQL.
- Live: interviewaii-i.vercel.app
- GitHub: github.com/prakashramav/Interview-AI

AI Growise – Smart Financial Assistant | *React.js, Node.js, MongoDB*

- Developed AI-powered finance tracking and budgeting application.
- Generated personalized insights for spending and savings optimization.
- Integrated analytics dashboards and scalable backend APIs.
- Live: growise-ai-finance8.vercel.app
- GitHub: github.com/prakashramav/growiseAI

Recruitment Portal – Multi-Role Hiring Platform | *React.js, Express.js, MongoDB*

- Built recruitment platform with Applicant, Recruiter, and Admin roles.
- Implemented JWT authentication and role-based authorization.
- Developed 20+ REST APIs for recruitment and candidate workflows.
- Live: recruiter-ashen.vercel.app
- GitHub: github.com/prakashramav/recruiter

Education

Bachelor's Degree in Computer Science 2024-2028

Polaris School Of Technology, Bengaluru, Karnataka

Achievements

- Solved 150+ DSA problems across LeetCode and CodeChef platforms.
- Built and deployed multiple AI-powered full-stack applications.
- Actively learning System Design, Generative AI, and Agentic AI architectures.
- Focused on scalable architecture and production-ready systems.
- Active GitHub contributor with projects in AI, finance, careers, and productivity.
