

PRAKASH RAMAVATH

Karnataka, India

arjunrathod7993@gmail.com | GitHub | LinkedIn | Portfolio | LeetCode | CodeChef

Professional Summary

Full Stack Developer and AI Product Builder with hands-on experience building and deploying scalable web applications, SaaS platforms, REST APIs, and AI-enabled products using Next.js, React.js, Node.js, Express.js, PostgreSQL, MongoDB, and LLM APIs. Experienced in backend development, database integration, authentication, API development, feature implementation, production deployment, and building maintainable software solutions. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Git, and System Design. Solved 150+ DSA problems across LeetCode and CodeChef.

Technical Skills

Programming Languages: JavaScript, TypeScript, Java, Python, HTML5, CSS3

Frontend Development: React.js, Next.js, Tailwind CSS, Redux

Backend Development: Node.js, Express.js, REST APIs, JWT Authentication, API Integration, Server-Side Development

Databases: MongoDB, PostgreSQL, Supabase, Prisma ORM, Database Design

AI & Cloud: Google Gemini API, Generative AI, Agentic AI, Firebase, Vercel, Render, Clerk, Stream SDK

Computer Science: Data Structures & Algorithms, OOP, DBMS, Operating Systems, System Design, Software Engineering

Development Tools: Git, GitHub, Postman, VS Code, npm, API Testing, Version Control

Projects

ResumeAI – AI Resume & Career Optimization Platform | *Next.js, TypeScript, PostgreSQL*

- Built and deployed an AI-enabled SaaS platform that generates ATS-optimized resumes tailored to job descriptions.
- Implemented multi-step AI workflows for keyword optimization, resume enhancement, career insights, and skill-gap analysis.
- Integrated PostgreSQL for persistent data management and developed production-ready application workflows.
- Implemented AI-driven recommendations to help users improve resumes and align skills with job requirements.
- Live: resumeai.vercel.app — GitHub: github.com/prakashramav/ResumeAI

Interview-AI – Real-Time AI Interview Platform | *Next.js, Prisma, PostgreSQL*

- Built and deployed a real-time AI interview platform supporting live video/audio interview sessions and AI-assisted workflows.
- Integrated Google Gemini API for automated question generation and answer evaluation.
- Implemented secure authentication using Clerk and JWT-based authentication workflows.
- Configured Arcjet middleware for API rate limiting and bot protection to improve application security and reliability.
- Developed scalable backend workflows using Prisma ORM and PostgreSQL with production-ready API integration.
- Live: interviewai-i.vercel.app — GitHub: github.com/prakashramav/Interview-AI

AI Growise – Smart Financial Assistant | *React.js, Node.js, MongoDB*

- Developed and deployed an AI-powered financial tracking and budgeting web application using React.js, Node.js, and MongoDB.
- Built scalable backend APIs for financial data management, budgeting workflows, and application functionality.
- Implemented personalized AI-driven insights for spending analysis and savings optimization.
- Developed analytics dashboards to present financial trends and user-focused insights.
- Live: growise-ai-finance8.vercel.app — GitHub: github.com/prakashramav/growiseAI

Recruitment Portal – Multi-Role Hiring SaaS Platform | *React.js, Express.js, MongoDB*

- Built and deployed a multi-role recruitment platform supporting Applicant, Recruiter, and Admin workflows.
- Implemented JWT authentication and role-based authorization for secure access to application features.
- Developed 20+ REST APIs for job management, candidate workflows, applications, and recruitment operations.
- Integrated MongoDB with Express.js backend services for scalable application data management.
- Live: recruiter-ashen.vercel.app — GitHub: github.com/prakashramav/recruiter

Education

Bachelor's Degree in Computer Science

2024 – 2028

Polaris School of Technology, Bengaluru, Karnataka

Achievements

- Solved 150+ Data Structures and Algorithms problems across LeetCode and CodeChef.
- Built and deployed multiple production-ready AI-powered full-stack web applications.
- Developed applications involving REST APIs, authentication, databases, AI integrations, and cloud deployment.
- Actively developing knowledge of System Design, Generative AI, and Agentic AI architectures.
- Active GitHub contributor with projects across AI, finance, recruitment, careers, and productivity.
